FOUNDERS KEEPERS

Tonia Cawood BCom BPhEd CMIInstD

Founder, Business Owner, Advisor, Project Manager, Mentor, Independent Director, Chair of the Board: recovering perfectionist, super passionate about tapping into pracademia to help people unlock their leadership talents to be all they are capable of, leading with passion and power to fulfil their purpose.

Sacha Coburn LLB MEd

Founder, Business Owner, Leadership and Communication Master Keynote Speaker, Author, Facilitator, Mentor, Franchisor, Director: recovering lawyer, with a recently acquired First Class Honours Masters degree in Adult Education, super-powered up to elevate people to lead authentically with courage and grit.

WHY:

- Unlocking potential for you and your people is critical to success as a leader. You only achieve outstanding results when you master leading from the inside-out. **We know this. We see this.**
- The struggle is real. Lack of clarity, conviction and compelling communication of purpose, vision, values and strategy leaves people confused and demotivated. Culture disintegrates and innovation opportunities are squandered. **We can help.**
- High performing individuals and teams understand what makes them tick and leverage their collective talents and execution skills to deliver remarkable results. **We want this for you.**

HOW:

- Acceleration and immersion are evidence-based approaches that underpin the design of all our leadership development programmes.
- We go fast and far, and dive deep to master the fundamentals of authentic leadership.
- We focus on both behaviours and skills. When you lead from the inside-out your results reflect not only what you do but most importantly who you are.

WHAT:

- Clarifying your leadership purpose, strengths and values
- Identify what successful leadership looks like for you
- Expanding your self-awareness and emotional intelligence
- Optimising you by mastering your fundamentals
- Speakership
- Building high performing teams
- Giving and receiving fertilising feedback
- Planning for making the learning stick
